

European Commission's helpdesk for social service providers!

On 3rd June 2020, 10h00-12h00 CEST, the European Commission will be hosting a virtual helpdesk, in the form of a webinar, that will provide advice to social services on how to access the EU's Coronavirus Response Investment Initiative (CRII and CRII Plus).

Launched in response to the outbreak, the initiative seeks to re-direct unspent EU Structural Funds to national, regional & local communities fighting COVID-19. Bringing together the European Commission, Managing Authorities, support services providers and users, this webinar will address how this initiative can boost funding for social services.

The webinar will be the opportunity for you to engage with the European Commission and Managing Authorities and shape the measures that can boost CRII funding for social services. If you have additional or pressing funding needs linked to your response

to the COVID-19 outbreak, this event will provide a unique space to communicate with the European Commission and Managing Authorities and potentially transform your funding needs into EU funded projects.

Register now

Due to the high number of participants, your audio and video will be turned off, it will however be possible to ask questions via the Chat function. Please also be aware that this webinar will be recorded.
